CONSTRUCTION OF LANDING GROUND AT KUMMERSDORF.

25X1

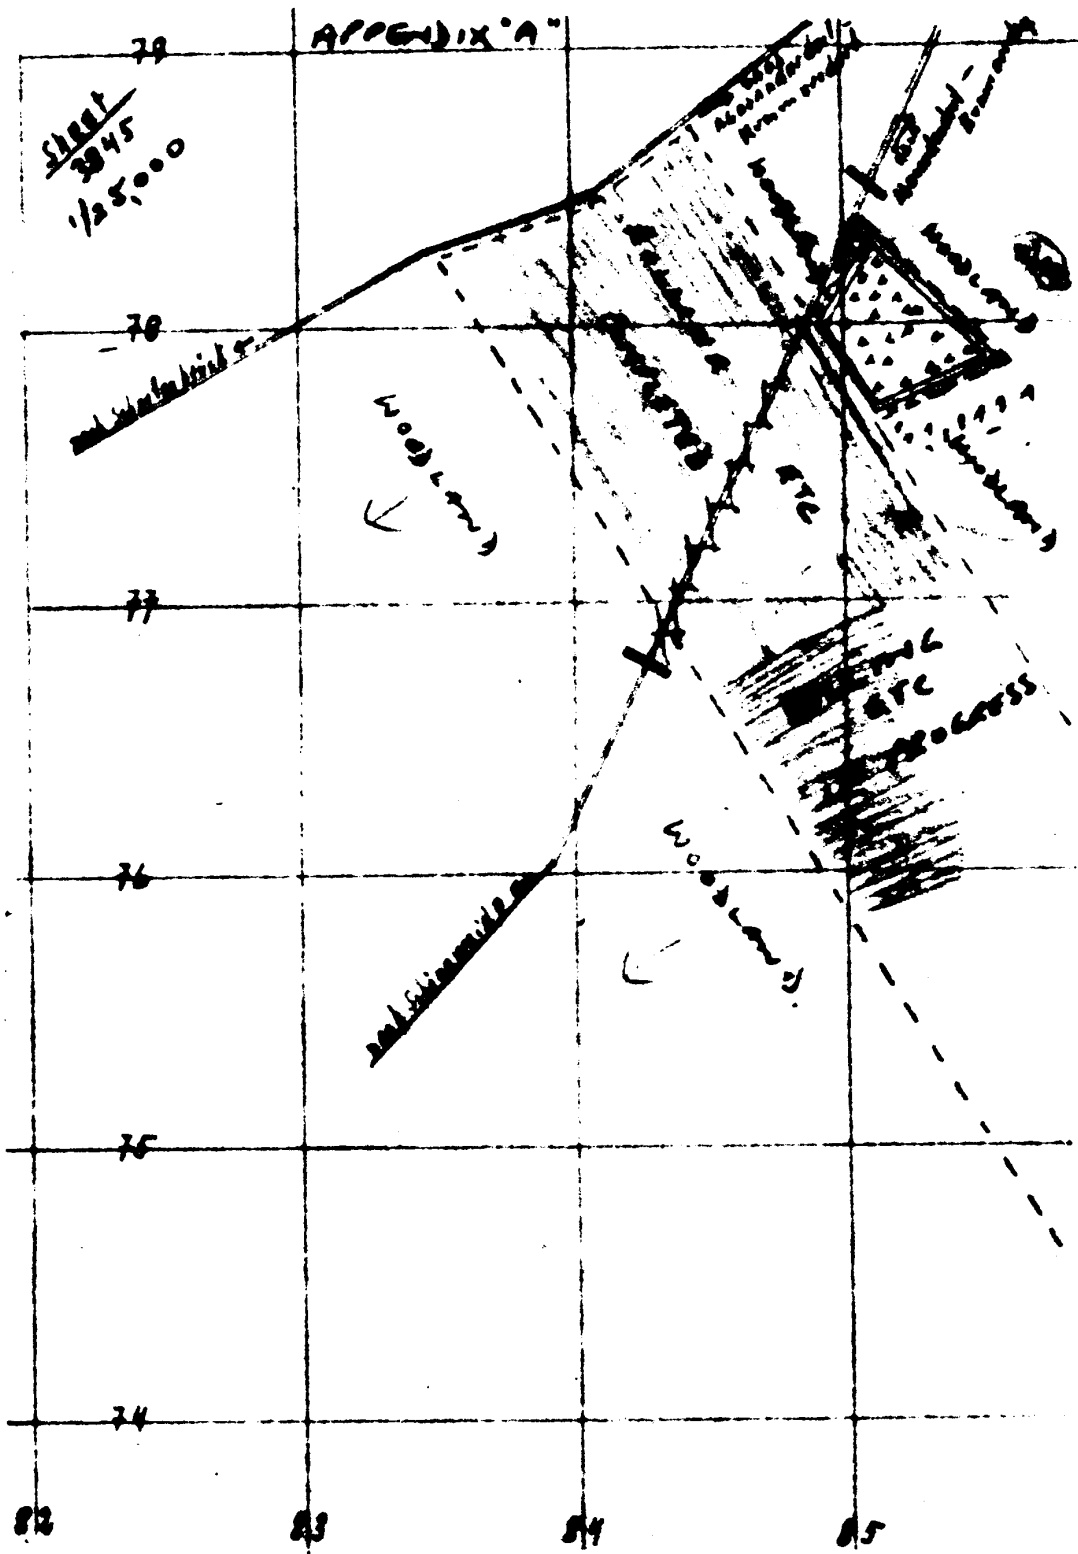

1. The sketch at Appendix "A" shows the location and the area where work is being carried out on the firing range at KUMMERSDORF where a landing ground is being constructed.
2. As at the 13th July, 1958, rolling and levelling had been completed up to a point approximately 2 Kms south of the road leading from SCHARFENBRUCK to ALEXANDERDORF. This type of work is still continuing for a further 1 Km southwards.
3. The road leading from SCHARFENBRUCK to ALEXANDERDORF is still open to civilian traffic. The road from SCHONEWEIDE to ALEXANDERDORF is, however, closed at the point shown on the sketch and can only be used by SAF vehicles.
4. In the woodland area approximately 200 metres to the South-West of the TEUFELSEE (see area shown on sketch) 4 straight narrow clearings have been made to form the shape of a rhomboid. At each of the 4 corners of this rhomboid a SAF guard post had been set up.
5. All the work being carried out in the area was being undertaken by SAF personnel.
